La FRENCH FAB

REVOLUPLAST

YOUR CASINGS MADE DIFFERENTLY - CUSTOM - WITHOUT MOULD COSTS

You are looking for a simple plastic transformation process, efficient, fast and affordable to manufacture your new plastic part ?

What sets us apart

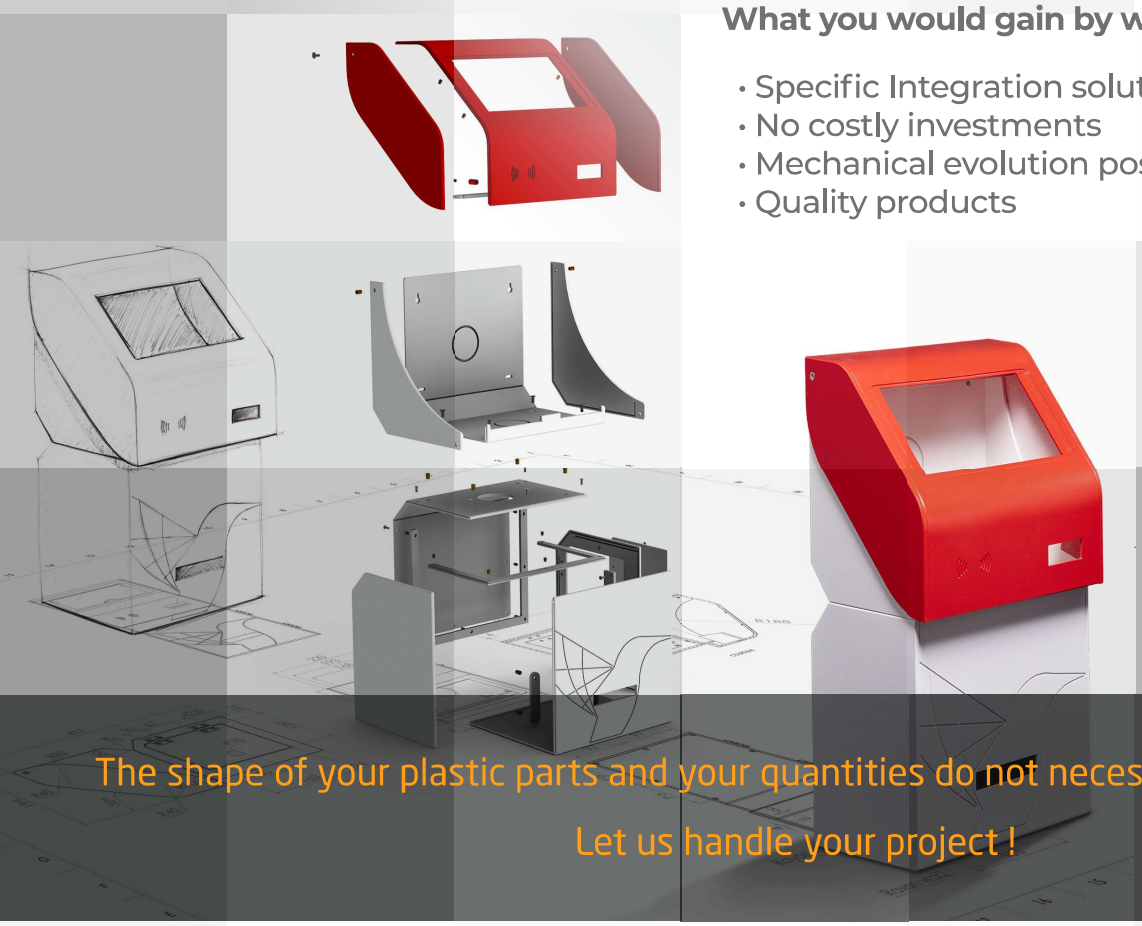
- Our moldless manufacturing process
- Our efficient production facilities dedicated to small and medium sized series
- Manufacturing of a qualification part before the first series production
- Customisation tools : digital and screen printing, painting...
- All stage of production on the same site in France
- Many years of experience

What we put at your disposal

- A short design-conception-manufacturing cycle
- Our commitment quality and customers relationship
- An available technical and sales team
- A unique interlocutor throughout your project
- An available and varied stock of raw materials

What you would gain by working with us

- Specific Integration solutions
- No costly investments
- Mechanical evolution possible between 2 series
- Quality products



The shape of your plastic parts and your quantities do not necessarily require tooling !

Let us handle your project !
